

## Press release

### **SPIE and DEKA extend their partnership**

Five-year contract signed for 26 properties in Germany

**Ratingen, July 26<sup>th</sup>, 2017** – *The properties of the DEKA Group are financed by private and institutional investors. The smooth operation of properties requires reliable and modern facility management. To this end, DEKA regularly invites tenders for the provision of services for all properties. SPIE has again beaten the competition to win a five-year contract for 26 properties in northern and southern Germany.*

The logistics buildings, hotel, office and commercial properties for which SPIE will be responsible as from July are located in Hamburg, Hanover, Bremen, Berlin, Wolfsburg, Stuttgart and Munich. The multi-technical services provider is taking charge of the complete technical and infrastructural building management for a total of 26 properties.

#### **The confirmation of a successful long-term cooperation**

SPIE has been providing its services to the DEKA Group since 1999. *“We are delighted with the continuation and expansion of our cooperation. it’s a real sign of confidence in our employees’ performance,”* says Andreas Reinke, project manager responsible for the DEKA portfolio at SPIE. *“As a long-standing partner of the DEKA Group and on-site point of contact for its tenants, we will continue to reliably provide our services for the properties we already manage in northern Germany. By taking on ten further properties in southern Germany, we are building on this success story.”*

#### **About SPIE Deutschland & Zentraleuropa**

SPIE Deutschland & Zentraleuropa, a subsidiary of the SPIE group, the independent European leader in multi-technical services in the areas of energy and communications, is the leading multi-technical service provider for buildings, facilities and infrastructure in Germany, Austria, Poland, Czech Republic, Slovakia and Hungary. Its service range encompasses technical facility management, energy-efficiency solutions, technical services for the transmission and distribution of energy and for industrial clients as well as in the areas of mechanics, electrical and security technology, HVAC technology and information and communications technology.
